IMAGEPRINT R.E.D. for OSX
Convert a Trial Version to a Licensed Version

1. Launch **IPSetup** from your ImagePrint folder and click **License**.

2. Copy and paste the license code number from the email you received during the Activation step. Click **Done**. Your ImagePrint R.E.D. driver will now be listed in the IPSetup window.

3. Close IPSetup by choosing **Quit** from the menu at the top of the screen.

4. Choose to **Quit** to exit the installer, or choose **Launch** to get started with ImagePrint R.E.D. right away.

Whenever you want to use R.E.D. you can start it by going to Applications > ImagePrint and double-clicking the IMAGEPRINT icon. You can also drag the IMAGEPRINT icon to your Macintosh Dock for faster access in the future.

RECOMMENDED

Before you make your first print, we suggest you read through "Making your first print with IMAGEPRINT R.E.D." located in your IMAGEPRINT folder.

Additional Documentation

The complete IMAGEPRINT manual is a valuable reference for getting the most out of your software. You'll find a copy in the IMAGEPRINT folder (IMAGEPRINT Users Manual.pdf) or by choosing Manual from the IMAGEPRINT Help menu.
